REMARKS

Applicant respectfully requests that the Office amend the instant pending application after the Office's issuance of a Notice of Allowance under 37 C.F.R. § 1.312. The amendments i) are needed to accurately identify, disclose and protect the invention (directed specifically to methods recited in the allowed claims); and ii) will require no substantial amount of additional work on the part of the Office—minor editorial changes in the Title, text and Abstract of the application.

Applicant's representative only first identified these amendments (making no substantive changes in the claims or specification and merely correcting formal matters in the application) during a complete review of the application prior to preparing documents for payment of the Issue Fee (Issue Fee Payment enclosed herewith).

In view of the foregoing Amendment and Remarks, Applicant requests that the Office amend the application as requested, and promptly pass the application for issuance.
